

Region 15 Virtual Chorus Project Extra Tips and Instructions

- ★ Please make one combined audio/video recording (smartphones work great for this).
 - Although the producer's instruction sheet outlines guidelines for the video and audio recordings separately, you should apply those tips to one combined audio/video recording.

- ★ You will need two devices for this project:
 - On a computer, laptop, phone, etc. you will watch the director video and listen with headphones or earbuds.
 - At the same time, record yourself on your phone or other device.
 - Start your recording first, then start the director video on your other device.

- ★ **IMPORTANT:** As a cue for the sound engineer, you should speak along with Harriette's countdown, and clap, as part of your recording.

- ★ Please use the following file naming format, so we can identify your submission:
 - firstnamelastnamePART (i.e. KayWeissBASS)

- ★ To submit your audio/video recording, go to the link at the bottom of the producer's instruction sheet. (The line "Use the link HERE to submit you video/audio" includes a live link to the recording submission form. This will open up a Google form that will walk you through the submission steps.)

- ★ Stage makeup not required, but we do suggest some "everyday" makeup (especially mascara and lipstick)

- ★ Wear something to showcase your chorus (logo shirt, pin, etc.)

- ★ Be sure you are facing the camera – and bring on the faces!

- ★ Have FUN!!!!!!!

- ★ If you have any questions, please do not hesitate to contact Region 15 Events Coordinator Kay Weiss
 - Email: kweiss365@gmail.com
 - Please include "Regional Chorus Project" in the subject line.
